VEES DP-01 BLENDER

VEES DP-01 BLENDER

Â

8 special features of VeeS Deliprocessor
Intelligent and user friendly design

Intelligent preset programs
High fiber fruit and vegetable juices, hot cereal drinks, all kinds
of ice shakers, sauces, dry powder grinding, full-featured conditioning.

Flexible time & speed adjustment
Equip from 5 sec. to 30 min. and speed adjustments. Hence it gives you more
flexibility to meet your own requirement for perfect blending results.

HCS blending blades from Japan
The enhanced High-Carbon Steel (HCS) blending blades from Japan are
durable and heat resistant. The entire pieces of fruit can be blendedÂ
into juice without peeling or seed removal.

Triple safety protections
It comes with triple safety protections devices: displacement
shut-off, overheat and current overload safety protection.

"Phyto-Rich" Vegetable Program
This unique preset program is based on the blending cycle which can derive
phytonutrients from fruits and vegetables. You can now enjoy truly
beneficial juices with one simple touch of a button

Super high speed motor

The exceptional 3 horse power high speed motor ensures the most refined blending. As a result, nutrients and fibres can be completely consumed.

2 Litres large blender jug

This large and transparent jug is made up of heat resistant material. You can monitor the processing completely and feel safe about your food.

Safety and heat resistant jug

This blender jug is made of Triton which is BPA-free (Bisphenol-A)
